

Name _____

Dear Parents,

Our test on place value of two-digit numbers is _____! Please use this homework to review the skills with your child. Our test will cover:

- Renaming groups of ones as tens and ones (17 ones = 1 ten, 7 ones)
- Identifying the value of digits through the tens place (42 = 40)
- Four different ways to write a number: standard form (34); expanded form (34 = 30+4); word form (thirty-four); and picture form (with base-10 blocks)
- Comparing numbers (82 > 40+2)
- Review concepts

Part 1: Rename each group of ones as tens and ones.

Example: 12 ones = 1 ten 2 ones = 12

1. 14 ones = _____ tens _____ ones = _____
2. 29 ones = _____ tens _____ ones = _____
3. 31 ones = _____ tens _____ ones = _____

Part 2: Write the value of the underlined digit.

Example: 42 40

1. 78 _____
2. 42 _____
3. 47 _____

Part 3: Write each number in expanded form.

Example: 23 = 20 + 3

1. 68 = _____
2. 41 = _____
3. 53 = _____

Part 4: Draw the base 10 blocks for the following numbers:

1. 67
2. 45

Part 5: Write the symbol (<, >, =) to make the comparison statement true.

1. 62 ○ 50 + 9

2. thirty-seven ○ 3 tens 7 ones
